ABOUT MAGICAL REALISM

The collection AW 11-12 / SS12 is inspired by the book *One Hundred Years of Solitude* (original title: *Cien años de Soledad*, 1967) by **Gabriel Garcia Marquez** and by extension inspired by the expression **Magical Realism**, created by German art critic **Franz Roh** in 1925, expressing a genre of fiction, in which magical elements blend into the reality, to create another reality.

As soon as I considerate fashion as a visual art genre and as an element of the World's Fiction, what is real and what is fiction are indistinguishable.

Theo L. D'haen in his book *Magical realism and postmodernism* describe it with this words: "... self-reflexiveness, metafiction, eclecticism, redundancy, multiplicity, discontinuity, intertextuality, parody, the dissolution of character and narrative instance, the erasure of boundaries, and the destabilization of the reader."

This new collection explores this country, the city of mirrors and the subjectivity of reality to propose a world, according to a particular perception.

In the complexity of times. This collection will turn around mocked mood, mixture of fabrics and motifs. Feathers and froufrou. Fantastic and marvellous. And Humour.

ABOUT TATA CHRISTIANE

Tata Christiane is a fashion label founded in 2007 by Julie Bourgeois and Hanrigabriel.

The brand proposes collections with serial and unique pieces and stands with its costume design studio for various cooperations in art performances, theater, cinema, photography and music.

Tata Christiane is a vision of the street costume, it proposes an absurd and disturbing vision of beauty, with decline, maladjustment, extravagance and immoderation. It plays with the borders of elegance and bad taste, digging up our old memories, recycling the waste of our civilisation, and becoming a monomania, a machination and a monstrous and sublime piece.

Tata Christiane could have been a punk, if she was not also an ambiguous queen, a one eyed flautist, a gypsy woman and a street child.

Tata Christiane is for boys and girls, women and transvesties, men and old people, kings and madmen.

The brand developps a collection a year, producing limited serial clothes and uniques pieces. Using hand made, the design and the cuts, the materials and the fabrics, follow from the adaptation of poetic museum / costumes / streewear ... pieces, into a contemporary street costume.
